

FURTHER VICTIMS IDENTIFIED

Four bodies were recovered while lifting the Hableány

Another four victims of the Danube boat accident of 29 May 2019 were recovered in the morning of 11 June 2019 when the Hableány was lifted from the river. Three persons are already identified as two South Korean women and the Hungarian captain of the boat, the latter was identified by his relatives. The identification of the fourth person – a child – is in progress.

The participants of the search, with doubled staff, continuously look for the four missing South Korean passengers on the whole southern section of the Danube.

The map shows the places of recovery of the victims of the Danube boat accident.
